

Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Fidelity Europe ex UK Equity Feeder Fund

a sub-fund of Fidelity Investment Funds VIII

Fidelity Europe ex UK Equity Feeder Fund Accumulation Shares
(ISIN:GB00BKS6CB48)

This fund is managed by FIL Investment Services (UK) Limited

Objectives and Investment Policy

Objective: The fund aims to increase the value of your investment over a period of 5 years or more.

Investment Policy: The fund will be at least 95% invested in the Fidelity Europe ex-UK Equity Fund, a sub-fund of Fidelity Common Contractual Fund II (an Irish Master Fund). Up to 5% of the fund may be held in cash and liquid instruments for liquidity purposes. The fund will not use derivatives. The Master Fund is actively managed and aims to increase the value of your investment by investing at least 66% in companies (those domiciled, incorporated, having significant business or listed) in Europe excluding the United Kingdom ("Europe ex-UK"). The remainder will be held in companies outside the Europe ex-UK region and in other investment types such as cash and derivatives. The Master Fund may use derivatives for efficient portfolio management purposes or investment purposes and may hold liquid instruments.

Investment Process: The fund is actively managed without reference to a benchmark.

Derivatives and techniques: Derivatives are investments whose value is linked to another investment, or to the performance of a stock exchange or to some other variable factor, such as interest rates and used to reduce risk or transaction costs and/or to generate extra income or further increase the value of your investment.

Additional Information: Income earned by the fund is paid into the fund and reflected by an increase in the value of each share. Performance of the fund may not exactly match performance of the Master Fund given that the fund may invest up to 5% of its Net Asset Value in liquid instruments such as cash. Shares can usually be bought and sold each business day of the fund. The typical investor in the fund will be a sophisticated investor. The fund's performance can be compared to the MSCI Europe ex-UK EUR (Net total return) Index.

Charges for this fund

The charges you pay are used to pay the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	0.00%
Exit charge	0.00%
The entry and exit charges shown are maximum figures. In some cases you might pay less - you can find this out from your financial adviser / distributor.	
Charges taken from the fund over a year	
Ongoing charges	0.75%
Charges taken from the fund under certain specific conditions	
Performance fee	N/A

Risk and Reward Profile

Historical data may not be a reliable indication for the future. The risk category shown is not guaranteed and may change over time.

The lowest category does not mean a "risk free" investment.

The risk and reward profile is classified by the level of historical fluctuation of the Net Asset Values of the share class, and within this classification, categories 1-2 indicate a low level of historical fluctuations, 3-5 a medium level and 6-7 a high level.

The value of your investment may fall as well as rise and you may get back less than you originally invested.

The fund may invest in instruments denominated in currencies other than the fund base currency. Changes in currency exchange rates can therefore affect the value of your investment.

This Fund is categorised in risk class 6 because, in accordance with the investment policy, the value of the investments may fluctuate considerably. Consequently, both the expected return and the potential risk of loss may be high. Master-feeder structure risk - there is a risk that the performance of the fund may not exactly match the performance of the Master Fund due to cash holdings and transactional costs.

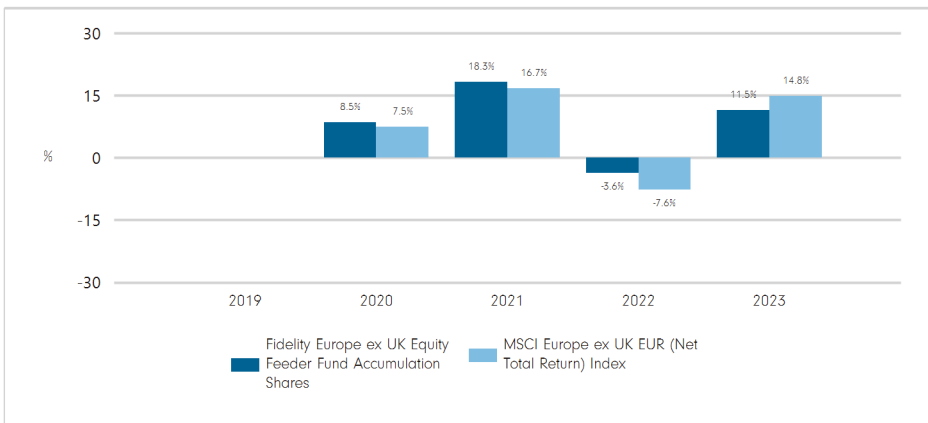

This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out.

The ongoing charges figure shown here for this new class is an estimate of the charges. This figure may vary from year to year. It excludes:

- performance fees (where applicable);
- portfolio transaction costs, except in the case of an entry/exit charge paid by the fund when buying or selling units in another collective investment undertaking.

For more information about charges, including the possibility that swing pricing may apply, please consult the most recent Prospectus.

Past Performance

Past performance is not a guide to future performance results.

If any, the past performance shown takes into account the ongoing charges with exception of any applicable entry/exit charges.

The Fund and the Class were launched on 21 November 2019.

Past performance has been calculated in GBP.

If applicable, events in the fund's life which may have affected the performance history are highlighted as an "**"; in the chart, which may include changes to the fund's objective and details of such events can be found on our website or by requesting it from your appointed representative or your usual Fidelity contact. If applicable, the Objectives and Investment Policy section shall refer to a benchmark and information on previous benchmarks may be found in the annual report and accounts.

Practical Information

Depository: JP Morgan Europe Limited.
